Subject: Meet with Charlie Menzie?
Date: 11/09/2010 09:44 AM

Chip and Eric:

As mentioned at the last Managers Meeting the LWG is looking at conducting a sensitivity analysis for the draft FS. The LWG has contracted with Charlie Menzie of Exponent to help us craft the initial scope of work and to act as a senior reviewer/expert of the KJ and Windward work products. Charlie is in town this week for the SETAC conference. I was wondering if either of you would like to meet with me and Charlie (informally). We can explain some of the things we are thinking about re the SOW and timing, and whether this type of analysis is prudent for the draft FS or as a stand-alone document. We'd like to hear your thoughts and concerns.

I'm thinking maybe we just get together for a late afternoon beer (I'm open all week except Thursday). If you are attending a SETAC presentation then maybe we could just do a side-bar at the conference center. Let me know if you're interested in getting together, and if so what day/time would work for you?

Thanks, Jim.
